

The FISD Executive Committee (EC) is charged in the [FISD Bylaws](#) with representing the FISD membership and setting the broad direction for FISD activities. In this capacity, the EC reviews and approves new initiatives, provides guidance to working groups and the FISD/SIIA staff, identifies priorities for the FISD budget and staff resources, and selects new EC members when vacancies open. The EC consists of an equitable representation by each of the three FISD broad constituencies -- exchanges, vendors and user firms. These diverse representations ensure that FISD is conforming to the overall goals, objectives and mission of its members. The EC meets at least quarterly, typically around the time of FISD General Membership meetings, but more frequent meetings may be called to address pressing issues.
